↓ (Future Implementation)

This wireframe represents a future implementation of the desktop form. It features a 'Navbar' at the top. Below the navbar, there is a 'Create / edit header' section. The main body of the form contains a 'form step' area with four square buttons. Below these buttons, there are three horizontal input fields. At the bottom of the form, there is a 'back button' on the left and a 'next / submit button' on the right.
